Reiter Consulting Services, Inc.

<u>Database Analyst</u>

Reiter Consulting Services, Inc. has an opportunity to work with a Federal Law Enforcement Agency as a Database Analyst. The DBA will work in an Agile environment to design, create and maintain Microsoft SQL Server and Oracle databases. Opportunity to work as a W-2 employee or 1099 contractor. Requires flexible schedule.

Responsibilities:

- Work in an Agile environment, including attending scrums and two-week sprints.
- Work with development teams and customers to obtain an in-depth understanding of the database requirements.
- Design, create and maintain databases from the user's requirements.
- Administer existing databases, including monitoring and running backups.
- Adhere to the Technology Solution Life Cycle (TSLC) process, creating and uploading all required documents.

Qualifications:

- Microsoft SQL Server: Table design methodologies, partitioning, T-SQL, triggers, replication and optimizer knowledge
- Oracle: Table design methodologies, Partitioning, SQL, PL/SQL, triggers, and optimizer knowledge
- General RDBMS knowledge: OLTP vs DW processing, backup and disaster recovery, performance tuning and optimization (PTO)
- Helpful to have understanding of Hyper-V, Windows 2012/2016 and Veeam Backup and Recovery
- SQL replication experience a plus
- Experience with Microsoft Office and SharePoint
- Strong technical and organizational skills
- Ability to work with a team or independently
- Experience working with law enforcement a plus
- Must be a U.S. Citizen and a security clearance is required

Education:

Bachelor Degree in Computer Science or a related field required.
